

## 2020-21 Unit 1 & Unit 3 Vocab

- Abiotic factors
- Acidification
- Altruism
- Autotroph (producer)
- Biodiversity
- Biomass pyramid
- Biotic Factors
- Carbon Cycle
- Carbon footprint
- Carnivore
- Carrying Capacity
- Commensalism
- Climate Change
- Climax Community
- Community
- Competition
- Decomposer
- Density-dependent factors
- Density-independent factors
- Detritivores
- Ecosystem
- Emigration
- Energy pyramid
- Food chain
- Food web
- Group behaviors
- Habitat
- Habitat fragmentation
- Herbivore
- Heterotrophs (consumers)
- Immigration
- Intraspecies competition
- Interspecies competition
- Invasive species
- Mutualism
- Native species
- Natural resources
- Niche
- Nitrogen Cycle
- Omnivore
- Organism
- Parasitism
- Pioneer species
- Population
- Primary succession
- Predation
- Secondary succession
- Solar energy
- Symbiosis
- Trophic levels
- Water cycle
- Anthrosphere
- Atmosphere
- Biodiversity
- Biomass
- Biosphere
- Climate change
- Co-evolution
- Cryosphere
- Ecological succession
- Ecosystem Degradation
- Extinction
- Fossil Fuels
- Geosphere
- Greenhouse gases
- Hydrosphere
- Migration
- Natural hazards
- Natural resources
- Non-renewable resources
- Pollution
- Recycling
- Renewable resources
- Sea Level
- Speciation
- Sustainability
