

2020-21 Unit 4 Vocab

- Acquired traits
- Adaptation
- Allele Frequency
- Artificial Selection
- Charles Darwin
- Common ancestry
- Comparative anatomy
- Comparative embryology
- Continental drift
- Directional selection
- Disruptive selection
- Descent with modification
- Subduction
- Transform
- Divergent
- Convergent
- Evolution
- Extinction
- Fitness
- Fossil record
- Gene Pool
- Geologic Time Scale
- Homologous structures
- Igneous rock
- Isotope
- Law of Superposition (relative)
- Natural selection
- Offspring
- Phenotypes
- Plate boundaries
- Plate tectonics
- Population
- Radioactive dating (absolute)
- Radioactive decay
- Sedimentary rock
- Speciation
- Species
- Stabilizing selection
- Survival of the Fittest
- Vestigial organs
- Phylogenetic Tree
- Cladogram
